Meet Moe: The man behind Ford Trade Club Collision

With three decades in the Collision Industry, a passion for Ford and a healthy sense of humour, we caught up with Ford Trade Club's Collision Specialist, Moe Shaarani to find out what he does at Ford.

Tell us a bit about your industry experience.

I've been in the collision industry for almost three decades, in hands-on and management roles, mainly in the prestige sector.

I've worked with everything from carbon fibre and aluminium to high-strength steels, tackling all types of collision damage.

I've had the opportunity to learn through hands-on experience, I-CAR training and working alongside some talented people. I'm still just as passionate about the industry as when I started – although my joints might disagree!

What do you do at Ford?

I'm Ford Trade Club's National Collision Specialist, working predominantly within Ford Customer Service Division (FCSD).

Basically, it's all things collision – and plenty that aren't! I work across Repair Procedures, refinishing techniques, parts usage, technical queries, repair specifications, and position statements. I also work closely with Ford Engineers, Insurers, I-CAR and our Collision Repair Network.

How does your role support the collision industry?

My role is about bridging the gap between Ford and the collision industry. We're providing clearer repair information and updated position statements to help repairers understand how repairs should be completed the Ford way.

Having spent most of my career in a Body Shop, I can walk into any Body Shop and speak their language. I think that real-world experience – and a bit of humour – goes a long way.

What projects have you worked on?

The F-150 Black Edition was a recent highlight. There were plenty of challenges, testing and hurdles, but with persistence and some real-world refinishing experience, we got it across the line. There's always a curve ball that sends you back to the drawing board – which keeps things interesting!

What's the best thing about working at Ford?

I've always been a die-hard Ford enthusiast, so working for Ford was definitely a bucket-list achievement. I love working with some of the brightest minds in vehicle engineering across Australia and the US. And, of course, getting the chance to remind our US colleagues that us Aussies know a thing or two!

Moe at home with his AU and BA XR8 Falcons.
Far Left: Helping out the F150 team at RMA.

A Winning First Year: Motorcraft Mustang Cup Builds Momentum for 2027

The Motorcraft Mustang Cup has hit its stride with plenty of great news stories running up and down the pit lanes of Australian motorsport circuits.

The all-new V8-powered racing series has seen excellent growth, with more cars and more stars joining the ranks.

By the time the category heads to Sandown for the final round in November this year, the number of Mustang Dark Horse Rs on the grid will be at record levels – a huge win for a brand-new series.

Building on this success, planning for the 2027 Series is well underway with an exciting addition

to the calendar already announced. Motorcraft Mustang Cup will be heading to the best race track in Australia – Mount Panorama, Bathurst.

The mountain is a sacred site in the sport, and a place where Motorcraft has been a part of amazing success, including a win with Dick Johnson's famous Ford team back in 1989.

That's right, Motorcraft is not new to the race car game, and a return to that great race track will be full of excitement and nostalgia.

The Motorcraft Mustang Cup is the right fit for the Australian motorsport scene. Big power, large audiences and cost-effectiveness for the competitor. It's a match made in heaven for Motorcraft.

And it could be a great fit for you, too. The one-make category has spots to fill on the grid – for drivers, car owners or even at a sponsorship level.

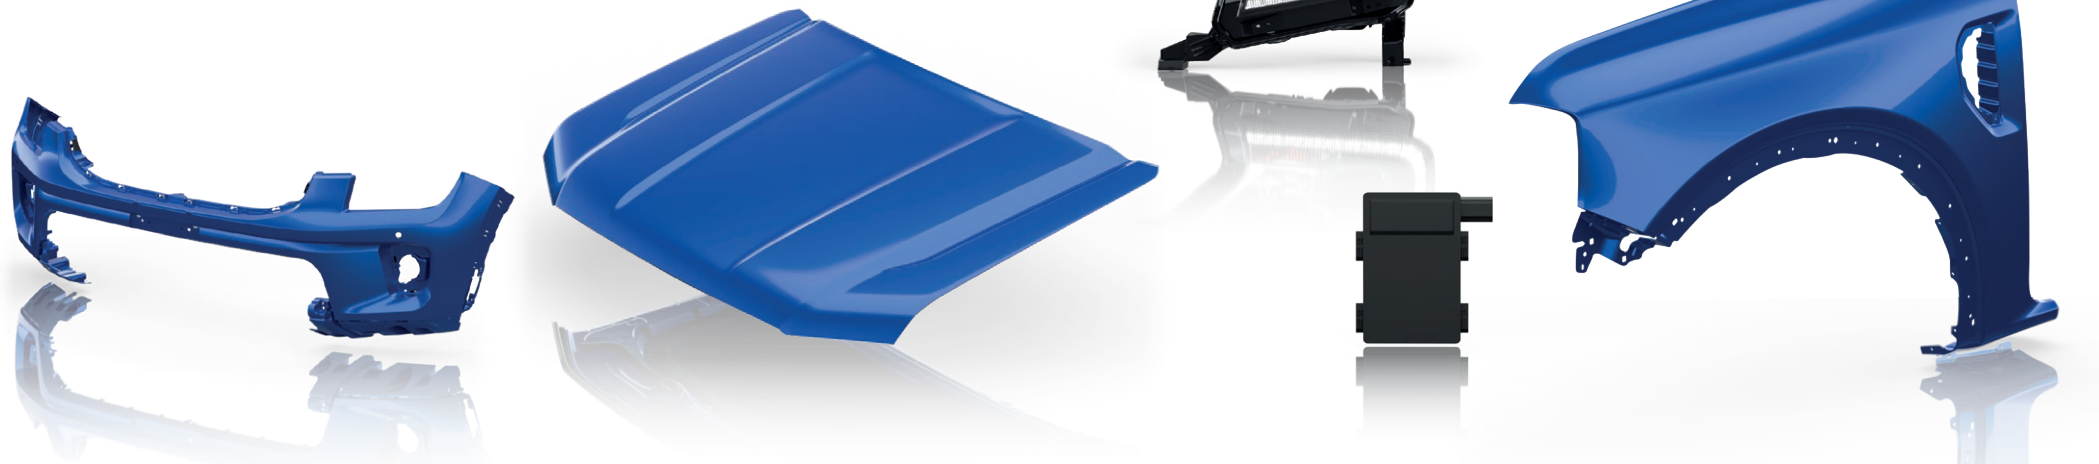

Get in touch with the team at Mustang Cup Australia to find out more about how you can get involved in a category that is bolting towards the lead of the pack. For further information contact liam@drivingsolutions.com.au.

Get to Sandown Raceway for the final round of the 2026 Motorcraft Mustang Cup as part of the SRO Speed Series, Oct 30 – Nov 1. There will be plenty of cars to see, as well as star drivers and a big Motorcraft Mustang Cup announcement.
